

AIRSOFT GB RULES OF PLAY AND DISCLAIMER

This must be read carefully and completed before you take part in any event. This set of rules is not a comprehensive list of safety rules and guidelines for the use and ownership of airsoft guns. This list is intended to assist Airsoft GB Ltd and User in understanding the responsibility that is a fundamental part of owning/using one of these products. This is no substitute for common sense and discretion when using an airsoft gun.

1. Always when in safe zone: DO NOT engage magazine, DO NOT pull your trigger, DO NOT dry fire your gun
2. Always keep your gun unloaded in the safe zone. When leaving game area take magazines out of all your guns, clear chambers and put safety switches on
3. No dry firing in safe zone
4. Triggers can only be pulled when players have goggles on and are in game area
5. Wear proper eye protection AT ALL TIMES when playing with airsoft guns. Full face masks are highly recommended and compulsory for under 18s
6. No shooting closer than 30 metres (98.42') for guns over 350 fps

AT AIRSOFT GB WE RECOMMEND THAT ALL PLAYERS WEAR A FULL FACE MASK. PLAYERS NOT DOING SO DO IT AT THEIR OWN RISK. Goggles are to be CE marked and conform to either EU EN1731 standard 2006 or EN 166/170 and should be able to withstand a close range impact from a 6 - 8mm airsoft ball fired at 500 fps.

DISCLAIMER

I UNDERSTAND THAT:-

- a. The events are physically and mentally intense and may require extreme exertion to play
- b. The events can be dangerous if not played in accordance with the stated rules which will be fully explained to the players
- c. The possibility of injury to me and others exists
- d. I am fully aware of the risks to myself and others involved in the activities
- e. I will NEVER, under any circumstances, deliberately break the rules
- f. I am physically fit and mentally able to take the strain and exertion involved
- g. I will comply with the site rules and use the equipment as instructed and not so as to injure or hurt others
- h. I confirm that my goggles are CE marked and conform to either EU EN1731 standard 2006 or EN 166/170 and can withstand a close range impact from a 6 - 8mm airsoft ball fired at 500 fps. Should my goggles not conform to this condition then I waive any liability arising from the use of my own goggles.
- i. I will wear my goggles and not remove them at any time with the exception of the designated safe zone

RELEASE

I hereby release, remise and forever discharge from any claims and liabilities whatsoever without limitation that I might have against the organisers/site owners and any other player who might injure me howsoever arising and I make this release on behalf of myself, my heirs, executors and administrators
